Tehran, Iran

SUMMARY

I'm Amir, a software engineer from Tehran with a B.Sc. from Shahid Beheshti University. I've been building apps with Flutter since 2019 — from a government service with over a million installs to startups and products for clients in Australia and the UAE.

EXPERIENCE

Mobile Developer 2026 — now
Dadeh Parvaran Mahda

Mobile Developer 2026
Soha

Flutter Developer — new 141 app 2025
Vitel
Came back to build the new version of the 141 app for Iran's Road Maintenance and Transportation Organization.

Mobile Developer 2021 — 2024
FASA (Fanavari Saipa Ertebat)
Mobile development at Saipa's communication-technology company, including the Saipa messenger app.

Lead Mobile Developer — Dangify 2019 — now
Dang Media
Built the Kurdish music streaming app from scratch and keep it growing — 50K+ installs on Google Play.

Mobile & Front-end Developer 2019 — 2021
Vitel (Vira Ertebatat Yekta Telephone)
Built the 141 app for Iran's Road Maintenance and Transportation Organization from scratch — over a million active installs — and worked on the front end of RMS, the organization's road-maintenance management system.

SELECTED PROJECTS

Nerkhat — website 2026
My own real-time price platform (4,500+ rates) — website, Android app and Chrome extension on one account. Live site

Warden 2024
New version of the app for GSM burglar alarms — remote arming, intrusion alerts, SMS & internet control. Warden website

Momzi 2024
Parenting app built end to end — courses, audio player, community forum. 12K+ active installs. Cafe Bazaar

Serviq — pro app 2022
Co-built the professionals' app of a home-services marketplace — 7K+ active installs. Cafe Bazaar
